

Caring

Do you care about our flag and what it represents?
July 2011 is the month of our country's 235th birthday.
Do you know . . .

- What you should do with a flag that is worn out?
- What a vexillologist is?
- If it's ever appropriate to fly the flag upside down?
- When our flag received 50 stars?
- When the flag should be carried flat or horizontally?
- Where to place the flag's blue union when hanging the flag in a window so it can be seen from the street?
