Can I copy health information between siblings or between organizations?

To ensure privacy and security, we keep each organization and participant's health information separate, and unfortunately there is no way to copy the information over between siblings or between organizations. We have found that this is the best method to protect private health information and keep it secure. By keeping each account separate we ensure that each child's health information is kept private and only viewed by those who "need to know". Some web-browsers have an "auto-complete" feature that may speed up the process.

The good news is the information you enter this year will remain in the system for future years, and you won't have to type it again if your children attend the same organization in the future!

What if I cannot complete the health profile before the due date?

Sometimes a participant may have a doctor's appointment scheduled after the due date, or there may be other circumstances that prevent you from completing the health profile on time. Every organization has different policies and requirements for completing health information and when they require health information to be completed. Our system is designed to send reminder emails until everything is complete, and you will have access to your health profile even after the due date has passed.
